STORY

"A cursed interview in 1997... At the time, we were competing with the Vipers. Hugues was being interviewed in the pits and we could see him close up on the TV screens. Just as he was saying that everything was going well and that our cars were doing a good job, we saw a huge flame taking up the whole screen behind him. Without knowing which car it was, we all pointed at the screen and suddenly... we saw Dohehl's car blazing! Since that day, every time Hugues has been interviewed in the pits, we've always prepared ourselves to a potential disaster."
Jean-Pierre Diot aka "Papi"

ONE FACT ABOUT THE TRACK

The famous Porsche Curves. The fastest but also most dangerous corners where cars must never go off track.
