RED BULL RING

21TH-22TH JULY 2018

4 HOURS OF RED BULL RING

STORY

"About the track: It may be summer madness, the mountains' stormy weather, or perhaps the energy of the famous giant bull sculpture overlooking the circuit, but unusual things always happen at the Red Bull Ring... A driver comes into the pits without warning his team. Another hits the wall inside the pit lane. A power cut disturbs all of the engineers during the race. Weather switching from blazing sun to heavy showers in just a few minutes... We never know what to expect there. This Austrian track is a true emotional roller-coaster!"

ONE FACT ABOUT THE TRACK

The Red Bull Ring has an eventful history. Renovated, shortened but later closed, then partly demolished, rebuilt, bought by and named after Red Bull: this race track has had no less than 4 different names!

A MUST EAT

Heidensterz. A Styrian dish made of buckwheat flour and lard.
