## STORY

"I remember a very specific moment in 1998. ORECA had entered a Viper that year. The car came into the pits for refueling, I was on the air jack and Jimmy in charge of changing a wheel. Suddenly I saw Jimmy putting the wheel down on the floor and running away. 'What is he doing!?' I thought. When I saw him coming back with the fire extinguisher I knew... When taking the wheel off Jimmy had noticed a fuel leak which had started spreading near the exhaust system and the car had caught fire!"

David Farri, assembly manager

## ONE FACT ABOUT THE TRACK

Silverstone Circuit is a little bit like the automotive's Silicon Valley. The greatest experts are based near the circuit: Force India F1, Williams GP, Renault F1... Not forgetting engineering companies and suppliers... It is the cradle of motorsport!
